## UNIVERZALNA INSTALACIJA

Ugradnja u montažne kutije Ø60 uz pomoć vijaka ili stegača. Mogućnost nizanja kutija. Program Experience se na ovaj način može ugrađivati kod adaptacije postojećih instalacija bez ugradnje novih montažnih kutija.

### UNIVERSAL INSTALLATION

*Installation into the mounting box Ø60 with screws or screw clamps. The possibility of installation of mounting frames in row. Program Experience in this way can be installed in adaptation of existing installations without installing of new prefabricated mounting boxes.*

## MODULARNA INSTALACIJA

Za sklopove 3 ili više modula obezbeđene su posebne montažne kutije na koje se prirubnica montira pomoću vijaka. Vijci se isporučuju zajedno sa prirubnicom. Montažne kutije mogu biti za pune i za šuplje zidove.

### MODULAR INSTALLATION

*For the assembly of 3 or more modules we are providing special mounting boxes where mounting frame is installing by screws. Screws are supplied together with the mounting frame. Mounting boxes are made for full and hollow walls.*

## SKLOPKE

Experience sklopke su jasno označene i sigurne za povezivanje zahvaljujući šemi koja se nalazi sa strane sklopke (smanjen je rizik od pogrešne instalacije).

U prirubnicu se postavljaju ručnim utiskivanjem sa prednje strane, bez skidanja prirubnice sa montažne kutije. Demontaža sklopke se takođe vrši sa prednje strane bez skidanja prirubnice sa montažne kutije. Dovoljno je izvijačem otkačiti modul sklopke.

Sklopke imaju jednostavne vijčane priključke koji omogućavaju sigurnu i brzu montažu. Opremljeni su uvodnim otvorima za lakše uvođenje provodnika. Prihvataju dva provodnika preseka do 4mm<sup>2</sup>. Vijci su obezbeđeni od ispadanja.

LED indikacije za sklopke (za indikaciju kada je sklopka uključena ili isključena) postoje u dve varijante: sa kontaktima i sa provodnicima. Korisniku je data mogućnost izbora boje indikacije (crvena, plava, zelena, bela).

## PRIKLJUČNICE

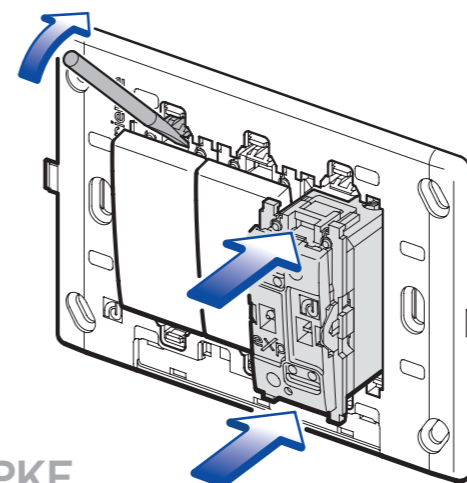

Experience priključnice odgovaraju strogim standardima i sigurnosnim proverama. Priključnice su snabdevene vijčanim priključcima sa uvodima za lakše uvođenje dva provodnika preseka do 2,5mm<sup>2</sup>.

Priključnice se rade i u varijanti sa membranama koje obezbeđuju zaštitu za decu sprečavanjem umetanja predmeta u priključnicu.

Montaža i demontaža u prirubnicu se vrši na isti način kao i kod sklopki.

### Prednosti utičnica Experience:

- veoma jednostavna montaža i demontaža
- pritezanje provodnika se vrši sa prednje strane i moguće je i kada je priključnica utisnuta u prirubnicu (olakšava laku montažu kratkih provodnika, krutih provodnika, velikog broja provodnika u kutiji)

## SWITCHES

*Experience switches are clearly marked and safe for connectivity thanks to the scheme, which is located on the side of the switch (reduced risk of incorrect installation).*

*Installing the module switch into the mounting frame is simply done by hand pressing from the front side, without removing the mounting frame from the mounting box. Disassembly is also done from the front side without removing the mounting frame from the mounting box. It is only needed to remove module by screwdriver.*

*Switches have simple screw connectors that allow safe and fast installation. Switches have inlets for easier implementation of conductors. Inlets can wire two conductors up to 4mm<sup>2</sup>. The screws are secured from falling out.*

*LED lamp for switches (for indication when the switch is ON or OFF) are offered in two types: with contacts and with conductors. Customer can choose the color of light (red, blue, green, white).*

## SOCKET OUTLETS

*Experience socket outlets are complied with strict standards and safety checkouts. Socket outlets are supplied with screw connections with introductions to facilitate the introduction of two conductors up to 2.5mm<sup>2</sup>.*

*Sockets are made with membranes that provide protection for children by preventing insertion of objects into the socket outlet.*

*Installation and disassembly into the mounting frame is done the same way as for the switches.*

### Experience socket outlet advantages:

- user friendly assembly and dis-assembly
- tightening of the conductors is done from the front and is possible even when the socket outlet is inside the mounting frame (facilitates easy installation of short conductors, hard conductors, a large number of conductors in a mounting box)

### KOMUNIKACIJE

Telefon, TV, Internet – teško je zamisliti sadašnjicu bez komunikacija. Experience komunikacijske priključnice garantuju optimalnu povezanost i visoku pouzdanost prenosa podataka kroz konektore RJ12 i RJ45 koji zadovoljavaju standarde Cat3, Cat5e, Cat6 i Cat6A.

Provodnici se spajaju u konektore bez upotrebe alata (toolless) umetanjem provodnika koji se automatski vezuje sa kontaktima zatvaranjem konektora. Konektori RJ45 zadovoljavaju standarde vezivanja TIA/EIA 568A ili 568B.

### COMMUNICATIONS

*Telephone, TV, Internet – it is hard to imagine the present without communications. Experience communications modules guarantee optimal connection and high reliability of data transfer through the RJ12 and RJ45 connectors that meet the standards Cat3, Cat5e, Cat6 and Cat6A.*

*The conductors are connected to the connectors without tools (tool-less) by inserting conductor that is automatically associated with contact closure connector. RJ45 connectors meet the standards binding TIA / EIA 568A or 568B.*

### DEKORATIVNE MASKE

Maske modularnog programa Experience svojom nekonvencionalnom dimenzijom (92mm visine) i svojim jasnim geometrijskim linijama zadovoljavaju i klasične i moderne zahteve korisnika.

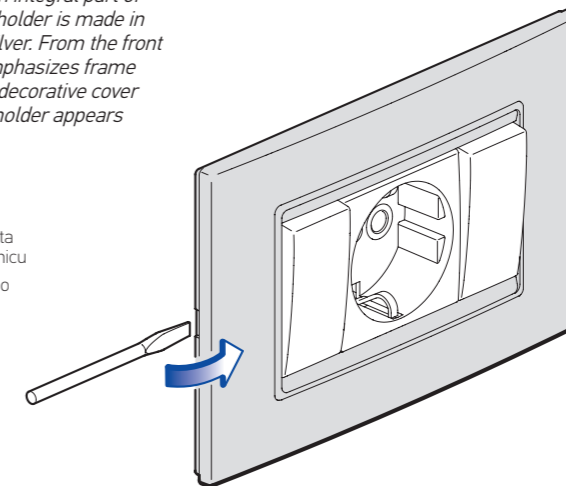

Novina Experience modularnog sistema je posebno dizajniran nosač maske, koji je sastavni deo dekorativne maske. Nosač maske proizvodi se u tri boje: bela, crna i silver. Sa prednje strane vidi se kao međuram koji naglašava dizajn maske. Gledano sa strane, maska sa nosačem deluje kao da „lebdí“ na zidu.

### DECORATIVE COVER FRAMES

*Cover frames of modular program Experience with its unconventional dimensions (92mm in height) and its clear geometric lines meet both classic and modern customer demands.*

*Novelty of Experience modular program is specially designed frame holder, that is an integral part of decorative cover frame. Frame holder is made in three colors: white, black and silver. From the front it looks like inner frame that emphasizes frame design. Seen from the side, the decorative cover frame together with the frame holder appears to "float" on the wall.*

- Prekrivna maska se postavlja bez alata jednostavnim utiskivanjem na prirubnicu
- Skidanje maske je veoma jednostavno i izvodi se izvijačem na predviđenom mestu čime se smanjuje mogućnost oštećenja

- The covering frame is positioned without any tools by simple pressing onto the flange
- The removal of frame is very simple by using the screw driver on the provided point thus reducing the possibility of any damage

### PRIRUBNICE

Prirubnica je konstruisana tako da poseduje čvrstinu i otpornost na udare i vrlo je jednostavna za ugradnju. Fleksibilna montaža čak i kod neravnih zidova omogućuje da postavljeni sklop uvek stoji ravno.

Mesta za ugradnju na prirubnici i simetrična geometrija prirubnice 2M omogućava horizontalnu i vertikalnu ugradnju u nizu.

- Sklopovi se mogu nizati horizontalno i tada je moguće spajanje kutija različite veličine.
- Ili vertikalno, gde se mogu nizati samo kutije iste veličine.

### MOUNTING FRAMES

*Mounting frame is designed to be hard, withstand impacts and is very easy for installation. A flexible installation allows that even at rough walls assembly can be installed straight.*

*Holes on mounting frame and symmetric geometry of mounting frame 2M are allowing horizontal and vertical installation in a row.*

- The assemblies can be followed in a row horizontally and then it is possible to connect the installation boxes of various sizes.
- Or vertically, where only the boxes of the same size can follow in a row.

## LEPOTA SKRIVENA U DODIRU

Nova linija maski programa Experience budi u korisniku još jedno čulo: čulo dodira.

Mekana, nežna površina - specifičnost koja naglašava sofisticirani izgled.

Maske soft touch proizvode se u dve osnovne boje: crnoj i beloj (sky blue).

Novina se ogleda u beloj masci koja samo u mraku svetli plavičastim svetlom, pa otuda i naziv sky blue.

## BEAUTY HIDDEN IN TOUCH

*New line of frames arouses in user a new feeling: a sense of touch.*

*Soft, tender surface - a distinctive feature that highlights a sophisticated look.*

*Soft touch frames are produced in two basic colors: black and white (sky blue).*

*Originality is reflected in the white frame that glows in the dark by bluish light, hence the name is sky blue.*

## ČUVAR VAŠEG ZDRAVLJA

- Antibakterijski program izrađen u standardnom ALING EXPERIENCE dizajnu i isključivo u beloj boji ima funkciju zaštite korisnika od prenošenja bakterija, virusa, mikroba i gljivica čestim dodirivanjem. Dnevno više korisnika dodiruje tastere sklopki, maske i blokove priključnica. Ovo je naročito izraženo u javnim i zdravstvenim ustanovama tako da je prednja površina idealno mesto za razvoj i širenje bakterija.
- Specijalni aditivi na bazi srebrnih jona koji se dodaju u plastične mase tokom vremena uništavaju i sprečavaju dalje širenje bakterija na površini plastike. Zahvaljujući ovim karakteristikama srebra postiže se veoma efikasna i dugotrajna zaštita zdravlja svih korisnika koji dolaze u dodir sa sklopkama, maskama i priključnicama.
- Prvenstveno je značajna primena u svim prostorima gde se zahteva visok stepen higijene kao što su bolnice i druge zdravstvene ustanove, restorani, autobuske i železničke stanice, aerodromi, školske ustanove, stanovi sa bolesnim osobama osetljivim na bakterije i viruse, stanovi zdravstvenih radnika, trgovinski i poslovni centri, javne ustanove (sudovi, opštine, muzeji, bioskopi, sportski objekti i sl.).
- Proizvodi su testirani u skladu sa standardom JIS Z 2801 i poseduju visok stepen redukcije bakterija na površini plastike.
- Održavanje i čišćenje se sprovodi isto kao i kod proizvoda koji nemaju antibakterijsku zaštitu.
- Proizvodi su identični kao i standardni program sa dodatom oznakom A ispred oznake proizvoda.
- Sve maske antibakterijskog programa označene su znakom raspoznavanja

## YOUR HEALTH GUARDIAN

- Antibacterial program made in standard ALING MODE design and exclusively in white color has a function to protect user from transmission of bacterial, viruses, microbes and fungi during the often touching. During the day more users touches the switch buttons, covering frames and socket blocks. It is especially expressed in the public and medical institutions, so that the front surface is perfect place for growth and spread of bacteria.
- The special additives on silver ions that were added to plastic compounds damage and block bacteria spread on the plastic surface. With the help of this silver characteristic there is very effective and long term protection of health for all users which are in contact with switches, covering frames and sockets.
- At the first time application is important at the places where a high level of hygiene is required like hospitals and other medical institutions, restaurants, bus and train stations, airports, schools, apartments with the sick persons which are sensitive on bacteria and viruses, medical employees apartments, shopping and business centers, public institutions (courthouses, townships, museums, cinemas, sport arenas).
- The products are tested according the standard JIS Z 2801 and they have a high level of bacteria reduction on plastic surface.
- Cleaning and maintenance is same like products without antibacterial protection.
- Products are identical with standard program with additional mark A ahead of product mark.
- All covering frames are marked with sign of recognition
